

# SMART-X Workshop info

## From and to the airport:

The city center is well connected with the airport and should not take longer than 1 hour to commute from one to the other. There are three options:

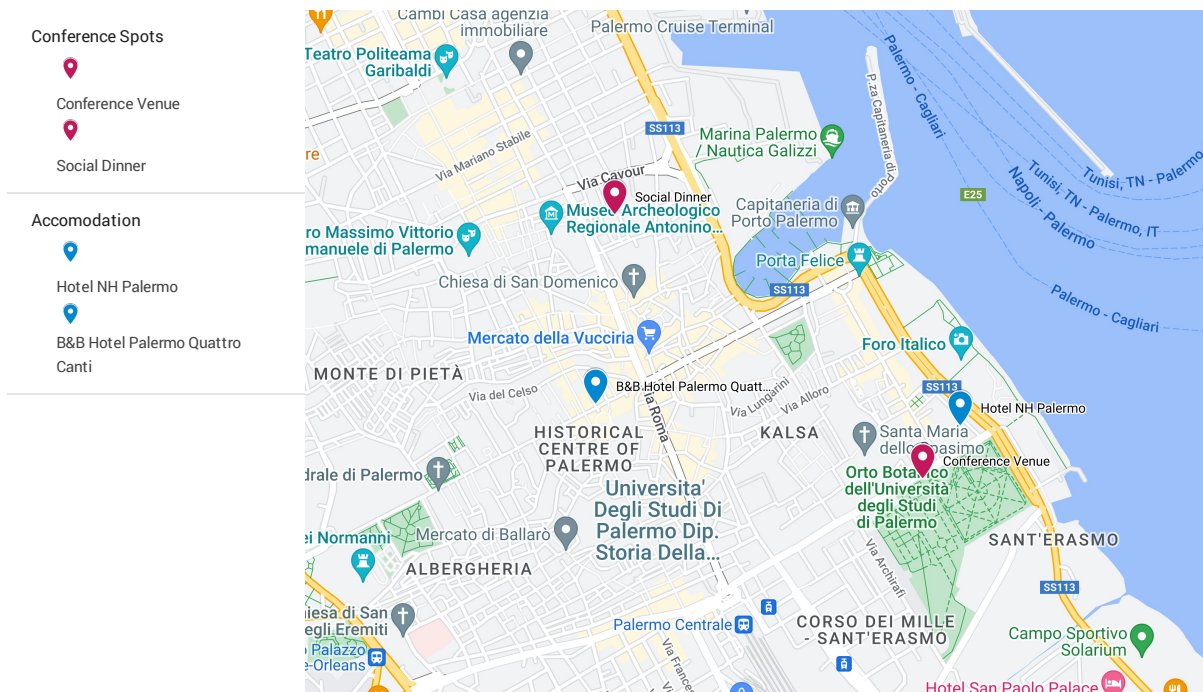

**Train:** you can get the train directly at the airport (the stop is called “Punta Raisi”), one floor below the arrival level, directly to the main station “Palermo Centrale” which is less than 5 minutes away from the venue. There is a train every 30 minutes (60 on the weekend), and the trip takes 50 to 60 minutes. You can check the timetable and buy the ticket on [the website](#) .

**Shared taxi:** this is the fastest option that will take you to the center in 30 to 40 min. Exit the airport from the arrival level and 50 m on the right you will find their parking spot. The cost is 7€ per person. Going to the airport requires booking over the phone please contact the organizers to get help with that.

**Bus:** you will find the stop 10m passed the shared taxi stand under the name “Prestia e Comandé”. The service runs every 30 min and the trip will take roughly 50 minutes depending on traffic.

## Venue:

The conference will take place at the Botanic Garden in the city center, therefore, we strongly recommend booking a Hotel in the surrounding area. We marked a few options which are 10/15 minute walk from the venue.
